Developer Java EE / Android

Technical skills

Programming languages: **Java EE, Android**, GWT, HTML5.

Methods: **Scrum**, UML.

Application servers: **JBoss, Tomcat**.

Tools: **Eclipse, Android Studio, EJB3**, JMS, **WebServices**, Swing, **JPA/Hibernate**, JSF, **SVN, GIT**, Ant, Maven, Gradle, MySQL, PostgreSQL, SqlDeveloper.

Language skills

French: Fluent.

English: Intermediate (writing, reading and communication).

Japanese: Beginner.

Work experience (7 years)

03/2015 - 06/2017: **Software Engineer Java EE**

Alteca, Toulouse, France

In a team of 6 persons with a really well applied Scrum management context. I have worked on creating user interfaces (GWT) and services (EJB3 & WebServices) in the accounting part of a hospital software for the MiPIH (Midi-Picardie Informatique Hospitalière) company.

✓ Java 7, Scrum, Jenkins, Eclipse, SqlDeveloper, SVN, GIT, JMS, Maven, JBoss, GWT, EJB3.

03/2014 - 02/2015: **Software Engineer Java EE**

Alteca, Toulouse, France

In a team of 4 persons for the CPCom company. I have worked on creating web services in the insurance field in close collaboration with other persons (who worked on Talend, PHP).

✓ Java 7, Spring Tool Suite, SVN, SOAP Web Services, Tomcat 6, PostgreSQL, Maven.

07/2013 - 02/2014: **Software Engineer Java EE**

Alteca, Toulouse, France

In a team of 5 persons for the iBP (informatique Banque Populaire) company. I have worked on creating user interfaces and services in the accounting field.

✓ Framework Equinox, Dreamviewer, Rational Rose, Rational Application Developer.

01/2013 - 06/2013: **Software Engineer Java EE**

SII, Toulouse, France

In a team of 4 persons for the DGAC (Direction Générale de l'Aviation Civile). I have worked on creating user interfaces (Swing & JSF) and services in the aeronautics field, allowing the user to input the air traffic.

✓ JBoss, EJB3, WebServices, Swing, JSF, Hibernate, SVN, Guava.

01/2012 - 01/2013: **Software Engineer Java EE**

SII, Toulouse, France

In a team of 3 persons for the DGAC (Direction Générale de l'Aviation Civile). I have worked on creating user interfaces (Swing) and services in the aeronautics field, allowing the user to input the incidents occurred in aircrafts.

✓ Tomcat, Swing, Hibernate, PostgreSQL, SVN.

07/2011 - 12/2011: **Software Engineer Java EE**

SII, Toulouse, France

In a team of 15 persons for the MSA (Mutualité Sociale Agricole) company. I have worked on creating user interfaces.

✓ Weblogic, JSP/Servlet, Struts, Hibernate, SVN.

09/2010 - 06/2011: **Software Engineer Java EE**

SII, Toulouse, France

In a team of 5 persons for Météo-France. I have added new features on the previous version of the software. Then on my own, I have upgraded the version of JBoss from 4.2 to 5.1 and fixed some issues during the guarantee period.

✓ JBoss, EJB3, Spring, Swing, JMS, Hibernate, PostgreSQL, Quartz, XLS, Batik, SVN.

Personal project

03/2012 - Now: **Software Engineer Android**

On my free time, I'm working on an Android application named "Rabbit Battery". It allows the user to save precious hours of battery life. It's available on Google Play.

✓ Android Studio, RootTools, Proguard, Gradle, GIT.

Education

2010 : **Master Degree** in computer science at Paul Sabatier university, Toulouse, France.

Hobbies

Improving my technical skills and foreign languages, reading, traveling, meeting people.
